Description:

In the charming Pienza, within the city walls, there is this recently restored property of about 31 sqm with a bathroom. Very convenient to services and parking, it is located in a very lively pedestrian street thanks to the presence of other well-established businesses. The property is accessed through a wooden door that opens to the outside and a double glass door with a wrought iron frame. With windows, with a beautiful flooring in elegant tiles, it houses a comfortable service bathroom. An internal door connects it to the staircase that serves the entire condominium and leads to the first floor to a 62 sqm apartment consisting of a kitchen, living room, two bedrooms, and bathroom. Immediately habitable, it has recently been refreshed in a modern style but maintains the connection with the origins through the grit floors, which have recently come back into fashion and are in excellent condition. This is for those who want to invest in a commercial activity and have a pied-à-terre in one of the most sought-after destinations in the world.
