Strategically positioned for both residential appeal and strong rental potential, this building is a turnkey asset for a discerning investor seeking a low-maintenance property with a solid return. A Modern and Well-Maintained Building

This residential building stands on a plot of approximately 489 m², offering a well-proportioned space that is easy to manage. The building's key features are its recent and significant upgrades, which a new owner can immediately benefit from. A new roof has been recently installed, providing peace of mind and protection from the elements for decades to come. The thermal insulation of the building has also been upgraded, a crucial investment that not only enhances tenant comfort but also leads to significant savings on heating costs. The central heating system is a high-efficiency pellet-based one, installed just four years ago, ensuring reliable and cost-effective heating for all units. A small cellar, approximately 6 m², provides a practical space for additional storage.

The building is divided into four distinct apartments, each with a unique layout and size, catering to a diverse tenant base. The units are spread across two floors, with two on the ground floor and two on the top floor. This configuration allows for flexibility in tenant selection, from singles and couples to small families.

- * Ground Floor, Unit 1 (approx. 73 m²): A spacious apartment featuring a kitchen, living room, two bedrooms, a bathroom, and a separate WC. This layout is ideal for a couple or a small family.
- * Ground Floor, Unit 2 (approx. 46 m²): A cozy unit with a kitchen, a single bedroom, a bathroom, and a WC. This is perfect for an individual or a couple seeking a compact and comfortable living space.
- * Top Floor, Unit 3 (approx. 80 m²): The largest apartment, with a kitchen, living room, two bedrooms, a bathroom/WC, a separate office, and a storage room. This unit also has a balcony, a highly sought-after feature that provides outdoor space and enhances its rental value. The added office space is a significant draw for remote workers.
- * Top Floor, Unit 4 (approx. 28 m²): A studio apartment with a combined living/kitchen area and a separate bathroom/WC. This unit offers a practical and efficient space for a single person.

All apartments are ready for rent. Two of the bathrooms have been completely modernized, while the other two are in good, functional condition and can be easily upgraded at a later stage, providing a simple way to increase rental value. The building also features a unique, enclosed wooden winter balcony, which serves as a perfect relaxation area or for extra storage, adding a special touch that will appeal to tenants.
