Description:	

OUTSTANDING LOCATION – FRONT FRONT LINE BEACH COMPLEX - Only 28 amazingly large 3 & 4 bedroom residences on the front line of the Mediterranean Sea. On the front line of the Mediterranean Sea, where each of the privileged families who live in the complex will enjoy a new concept of living, that even though being apartments convey the sense of living in a villa. Boasting floor to ceiling retractable sliding windows and enormous terraces, each of the buildings that compound the complex is frontal to the beach, making the most of endless views across the Mediterranean Sea. On almost 20.000m2 of front line beach plot is this high security, gated complex, of just 6 small blocks, comprising only 28 amazingly large 3 & 4 bedroom residences and exclusive access to the beach. Each of the apartments includes a minimum of 3 large parking spaces, with direct access into a private basement, directly connected to each of the homes through a private elevator. The modern design of the gardens still conserves a Mediterranean essence, most of these gardens are spread between the apartments and the sea. Swimming all year round in a prime front line beach position, becomes possible thanks to the large outdoor heated pool, which integrates a solarium shelf area and is run by a salt chlorination system. The infinity side of the pool gives the final touch, allowing an amazing visual integration of both waters, the pool one with the sea the other. The total built sizes of the 3 bedroom apartments go from 405m2 up to 431m2, and the 4 bedroom apartments from 548m2 up to 813m2. The design of the construction together with the most advanced technologies, as well as the innovative materials used, have given way to the breath-taking Smart Apartments that make up this special, one of a kind, beachfront development.
