Description:

A Selection of qualifying Golden Visa Funds in Portugal

Hospitality Fund is a unique opportunity that offers a fixed income of 2% a year and a buyback of €500,000 after a 6-year holding period. This fund's zero-management or subscription fee sets it apart, making it a cost-effective choice. This provider is responsible for the investment and development of 30 projects within the hospitality sector across the country with a portfolio of 1.2 billion value

Football Strategies Fund aims to acquire and develop three different football clubs, from a junior league to the premier league in a specific country. The designed strategy can be achieved and will generate exceptional profits. A club is an exciting machine of affiliation, owning players' passes and contracts, managing their careers, and developing a player's image and talent.

Finance Fund is a fund changing the renewable landscape in Portugal. It aims to help Portuguese companies finance their renewable energy portfolio through solar- and wind-energy-efficient producing facilities. We have been investing in the sector for the last three years, and they have proved to be stable and very generous.

Agrobusiness Fund aims to invest in Portuguese Agricultural projects relating to Water efficiency in farming and cattle management. These new sectors are significant investment fields where new industrial development shocks are needed. We are very confident in the projects that can be developed within this new strategy.

These are a few examples of qualifying Fund Investments for residency and citizenship investment in Portugal. For advice and details on each of these, please get in touch with us for an introduction to the relevant fund manager who is regulated to give advice on them.
