Description:

SINGULAR ASSET WITH COMPATIBLE USES ANALYZED

733 m² with spacious rooms, elevator, swimming pool, wine cellar and garage for 8 cars. Ideal for premium tourist accommodation projects, care homes, coliving or professional activities. Compatible uses analysed and contrasted in accordance with the applicable municipal regulations. An exclusive investment opportunity 20 minutes from Seville.

ITHLUX Sevilla presents an exceptional acquisition opportunity in the Aljarafe: a unique villa of 733 m², with a much higher exploitation potential than traditional housing, located in one of the urban areas with the greatest flexibility of use in the municipality.

IMPORTANT:

The property does not currently have any activity license granted.

The compatible uses have been analysed and contrasted directly with the Sanlúcar la Mayor City Council, in accordance with the applicable municipal urban planning regulations (Subsidiary Regulations and

PGOU in force), which allows certain uses compatible with residential use in this area.

This offers an optimal scenario for investors who wish to develop a project from scratch, with procedural legal certainty and margin for personalisation, in an area in high demand for tourism, corporate and healthcare services.

Why is it a unique business opportunity?

733 m² built, distributed in an open and easily adaptable way.

Strategic location, just 20 minutes from Seville, with train, buses and direct access by motorway.

Safe and consolidated environment, with schools, hotels, shops and health services.

Potential for compatible uses already analyzed:

Boutique tourist hotel accommodation

Long-term coliving

Medium-high level care residency

Wellness Center Corporate Retreats

Professional consultation or activity related to services

Combination of housing + activity (hybrid model)

Reduced operating costs thanks to underfloor heating, solar energy and own water tank.

Spaces that allow multiple exploitation models

Double height and large central lobby: reception, lobby or social space.

6 en-suite bedrooms + suites expandable to 10: premium accommodation coliving.

Elevator (3 stops): accessibility for healthcare use.

Spacious common areas and courtyards: wellness activities retreats.

Saline pool + porches: tourist product in high demand.

Wine cellar, games room and technical rooms: internal services or functional extension.

Garage for 8 cars: added value for business or health activity.

An asset of high strategic value

Sanlúcar la Mayor combines the best of the Aljarafe: tranquillity, nature, communications and stable demand.

It is an ideal location for projects:

tourist,

corporate,

toilets,

professional coliving,

or mixed.

Conditions of viability

The property does not have an activity license, and its viability will depend on the project proposed by the buyer, its adaptation to the sectoral regulations (accessibility, fires, capacity, facilities) and the obtaining of the corresponding authorizations.

This scenario offers the investor the opportunity to customise their operating model from scratch, on an analysed and compatible urban planning basis, subject to obtaining the corresponding licences.

A rare opportunity in the Aljarafe market

The villa brings together three elements that are very difficult to find together: surface area, versatility of use and strategic location.

Ideal for investors looking for a unique asset, with a high capacity for transformation and with compatible uses analysed in accordance with municipal regulations.
