Location:

Your new house is located in a new complex near the coast, in the Kraimorie residential area, which belongs to Burgas. With a total built-up area of 2,936 m², the complex features 14 single-family houses, whose perfect location makes them an ideal choice for a summer house by the sea in Burgas or for year-round living.

Near the complex, there are a school, a kindergarten, restaurants, and public transport stops. The houses are two-story and three-story buildings, each with its own separate garage or parking space with a capacity for two cars. On the ground floor of each house, there is a living room and a kitchen with a dining area, separated into corners, as well as a storage room and a bathroom with an entrance hall. Parking spaces are available in the southwestern enclosed courtyard.

The courtyard where the house's pool is located is beautifully designed in tones that match the overall vision of the buildings.

The landscaping is natural—climbing vegetation on pergolas over the parking areas and on fences that separate the courtyards. The property is accessible via a street planned in the development detail plan towards the southwest and two pedestrian alleys.
