Soumis:	18/03/2026

Description:

In the heart of Valdichiana, in Abbadia di Montepulciano, just 100 meters from shops, for sale single-family house, with garden, terraces, and garage. Built around the 1960s and lived for decades by the same family, it still reflects the character of the houses of the old times: generous, bright rooms and a solid structure that lends itself to being reinterpreted according to a new vision of living. Today, it awaits a redevelopment project capable of restoring its life and identity. It is spread over four levels with a surface area of 471 square meters (5069 sq ft) and is surrounded by a 2,000 square meters garden, bordered on four sides by a characteristic brick and wrought iron fence, a gate, and driveway. The main entrance is enhanced by an external staircase leading to a spacious hall, where a central staircase with solid wood handrails and large windows leads to the various floors. The rooms are well distributed, with spacious corridors and rooms overlooking the green garden, allowing great freedom in the redistribution of space. The main living room on the ground floor has a central fireplace and two French windows opening onto a characteristic terrace embellished with a travertine balustrade. The kitchen has a second fireplace and access to a terrace. The five bedrooms, a study, and ancillary rooms offer the opportunity to create highly functional spaces. The size of the property, its layout, and its location make it particularly interesting both as a private residence and as a project for division into multiple residential units or bed&breakfasts venture. On the top floor, the attic represents additional space to be converted, together with the basement with storage rooms and garage. Apolloni & Blom is at your complete disposal with a local network of professionals and constructors to support you from the design to authorities permits up to full turnkey realization! Contact us for more details.
