Description:

We are selling a building plot with a total area of 1,084m² that consists of two plots. The plot in the first row to the sea has an area of 462m², while the plot located above it has an area of 562m². It is located in a peaceful residential part of the town, on the northern side of the island of Brac. Both plots have a municipal access road and all the necessary infrastructure. It is possible to build two smaller or one larger building.

More about the location: Brac is the largest island in the region of Dalmatia and the third biggest island from the Adriatic coast. It is located between Split and Hvar and it is very well connected with the mainland. The most common means of transport to reach the island is the ferry, catamaran, private boats and UBER boats. Brac is one of the sunniest islands with 2600 hours of sun in a year. The visitors are glad to visit the island for its wonderful beaches, unique nature and numerous monuments. In addition, a few authentic events and sport activities are organized throughout the whole year. Therefore, it is ideal for the summer holidays and for living during off season.
