Description:

Sinj, detached house in the very center of the city, floor plan area 140 m2, built on a plot of 1600 m2. It consists of the ground floor, which is in the nature of a storage room and a wine cellar 50 m2. On the first floor of 100 m2, there is an apartment with three rooms, a kitchen, and a living room which is the fourth room, a hallway, a storage room and a bathroom. The apartment is equipped with stylish furniture, which fits perfectly into the ambiance of the house. The upper floor has the same floor plan as the lower one (approx. 80 m2), only instead of one room there is a large terrace with a beautiful view of the city. This floor is in nature a high roh bau. Wide eye socket; in nature, the grassy garden with old trees and flower beds offers several areas for entertainment and lots of space for children. The house can be accessed from both the south and north sides. On the south side, a gravel driveway leads to the garage and a spacious garden, and the northern approach leads directly to the house. This property is a real rarity on the market: location, area, architecture, interior design style!
