Soumis: 25/05/2026

Description:

Launched in 2026, this contemporary tropical villa exemplifies architectural balance, where striking design blends seamlessly with the wild beauty of Ubud's jungle environment. Positioned on a spacious 500 sqm plot with 180 sqm of carefully designed living area, the villa features a sweeping curved roofline, dark stone pillars, and bamboo details that create a bold yet naturally integrated aesthetic. The open-plan living space extends effortlessly to a sunken lounge and a broad terrace, blurring the lines between indoor and outdoor living. Vibrant tropical foliage surrounds every view, while the elegantly curved private swimming pool, bordered by sun loungers and swaying palms, serves as the focal point of an immersive outdoor lifestyle.

Inside, the villa includes three generously sized bedrooms, each with an ensuite bathroom, along with a separate guest toilet—perfect for families, entertaining guests, or optimizing rental income. The interiors achieve a sophisticated mix of raw and polished elements: natural stone finishes, warm wooden ceilings, and rattan pendant lights complement a modern kitchen and thoughtfully selected furnishings. Every aspect is designed to provide comfort without losing character. **The property is situated on brown/green-zoned land (P-3 Plantation, buildable up to 40% with PKKPR, KBLI villa activity).**

Singakerta is among Ubud's most desirable locations, offering peaceful rice field and jungle surroundings while being close to Ubud's famous dining, wellness, and cultural attractions. This villa is equally appealing as a private home or a high-yield holiday rental, with its striking architecture and lush environment positioned to attract strong nightly rates on premium booking sites. Whether attracted by the

secluded jungle views, the pure design, or the long-term investment potential in one of Bali's most sought-after lifestyle areas, this villa excels on every front—a rare chance to own a truly exceptional property in central Ubud.
