Description:

Located in Kolasin.

We present an exceptional development opportunity in Kolašin, one of the fastest-growing mountain tourism destinations in the region and an area that continues to attract significant domestic and international investment. Spanning more than 100,000 m², the project envisions the development of an exclusive tourism and residential complex combining premium accommodation, private residences, and facilities dedicated to leisure, recreation, and nature-oriented experiences. The concept is based on sustainable development principles, contemporary architecture, and the careful integration of the project into its natural mountain surroundings. The location benefits from close proximity to key tourism attractions and offers ideal conditions for a destination capable of operating successfully throughout the year. The combination of winter tourism, summer activities, pristine nature, and the growing international recognition of Kolašin creates a strong foundation for long-term growth and value creation. This investment opportunity is intended for partners and investors who recognize the potential of high-end tourism and wish to participate in a project that brings together natural resources, modern standards, and significant development potential.
