### Leírás:

Untouched for many years, entering this property is like walking back in time with many traditional features including old stables to the rear of the house which could be converted into additional accommodation.

On the ground floor is a large San Juan entrance, a sitting rooms with 3 rooms off of this which would originally have been bedrooms. These could easily be converted to modern requirements including linking a dining room to the kitchen which is currently off the exterior patio.

Up stairs there are a further 4 bedrooms, a bathroom and a small terrace leading to the upper floor of the stables. Renovation work is required to make the property properly habitable and this would include making an additional roof terrace.

This property is sensibly priced to allow the new owner scope to turn it into a large magnificent family home. We are happy to manage projects on behalf of our clients and we can arrange quotes for any work required.

Situated midway between the old and new parts of town, the position is ideal to reach all the amenities Olvera offers. The town itself is just 30 minutes from Ronda and just over an hour from both Malaga and

Seville airports.
