Leírás:

Arrabellimmo, the only specialist in Portugal dedicated exclusively to terraced or garden properties, presents this magnificent Flor de Sal project.

The T3 rooms on the 1st to 5th floor immediately stand out for something rare and highly coveted: an outdoor experience. Here, the large terraces accompany the entire apartment, creating a unique feeling of space, openness and freedom. More than just outdoor spaces, these terraces function as a natural extension of the home, providing multiple environments for outdoor living throughout the day. Designed for those who enjoy breakfast in the sun, outdoor lunches and dinners, a lounge area with a view, a private green area...

This apartment boasts modern architecture, elegant lines and solutions designed for everyday comfort. All the apartments in the building have been designed to favor large windows, excellent natural light, a fluid connection between the interior and exterior, generous living spaces and quality finishes.
