Leírás:

An exceptional rustic plot of 10,000 m² is offered for sale, located just a 5-minute walk from the village centre. This plot represents a unique opportunity for those interested in developing a project in a natural environment, while maintaining proximity to the amenities and services of the urban core.

The plot has irrigation water installation, which facilitates the development of agricultural activities, gardening or the creation of private green spaces. In addition, the power lines are available at the foot of the plot, ensuring an immediate connection to the electricity grid without the need for additional investments in infrastructure.

The area, surrounded by villas and located on the Camino del Cabezo, offers a quiet and exclusive atmosphere, ideal for those looking to build a residence in an area of high residential value or develop a real estate investment project. The location of the land, its surroundings and the existing facilities in terms of basic services make it an attractive option for both investors and individuals who wish to enjoy nature without giving up the proximity to the town.

This rustic land not only offers potential for the development of a custom project, but also represents a

strategic investment in an area with high demand for residential properties. The combination of its extension, privileged location and access to basic services positions it as an excellent option for the realization of a long-term life project or investment. - REF: Pinoso XH 402140
