Leírás:

These two plots of Belize agriculture land are located along the recently upgraded Coastal Plain Highway. They have additional feeder road access and a creek that runs along the western border of one plot and the southern border of the other.

Upgrading of the Coastal Road to a major highway is stimulating economic activities in the area. The property can be connected to the electricity grid but solar is also an option. Water options include shallow well, rain water reservoirs and the nearby creek.

Small farming is the best use for this property as food demand grows in the country and region. This can be combined with tourism. The Coastal Plain Highway is scenic and has many caves and natural features that are now being used to attract nature lovers and others looking for unique experiences.
