This property is ideal for those looking to invest in agriculture in an area with great potential, combining favorable natural conditions and a life in a piece of paradise.

The farm (currently dedicated to floriculture and with international production) is composed of:

- a plot of 11.6 hectares in the Natural Park of Southwest Alentejo and Costa Vicentina and 2 km from the sea, and 11 km from Aljezur,
- a 400 m2 warehouse for production, packaging and refrigeration, ensuring quality production
- a technical area 30 m2 with pumping station (water pumps, tanks for ferti-irrigation)
- 2 wonderful bungalows: a T1 and a T3 legalized and validated by the Portuguese Ministry of Agriculture and Natural Park.

Currently an international trade in flowers and tropical plants, the property is 100% in an area benefiting from the Mira irrigation perimeter, with pressure irrigation, which guarantees excellent irrigation and

efficiency in hybrid management (next to an automated sub-dam that supplies the land).
