T2 apartment with high quality finishes, designed by the architect Samuel Torres de Carvalho with all the high-end features, its two suites, a south-facing terrace, a SMEG equipped kitchen and its bathrooms designed for the comfort of its inhabitants.

The high-quality materials, oak parquet flooring, custom-made joinery, LED illuminations, heated towel rails and integrated reversible air conditioning system, as well as the high acoustic and thermal standards make this apartment a unique and safe product.

The building in which it is located was completely renovated in 2022, offering a construction guarantee until July 2026.
