Leírás:	

Set in a peaceful location just minutes from the centre of Loulé, this generous rustic plot offers an exciting opportunity within an urban zone. The land sits behind a former ruin and benefits from a tranquil setting, yet remains conveniently close to all local amenities, schools, shops, and services. Ideal for those seeking privacy and space while staying near the heart of the Algarve.

With a permitted construction area of 450 m² spread over two floors, the plot allows for the development of a substantial home complete with a swimming pool and covered terraces. Whether you're looking to build a contemporary villa or a more traditional family residence, the layout and scale offer flexibility to realise your vision.

A planning request is currently under review with the Loulé Town Hall to divide the land into two separate plots. Although the process is not yet finalised, this could offer a buyer the potential to build two independent houses ideal for investors, developers, or families seeking to create a multi-home estate. Whether used as a large private residence or split for development, this plot represents a rare investment opportunity in one of the most sought-after regions of the Algarve.
