Leírás:

Zagreb, Gornje Vrapče, building plot of 1010 m² for sale with an existing older house, in a good location. The plot is elongated in shape, with a frontage width ranging from 6 to 12 meters, and has a slope toward the east. There is a small existing house built before 1960, suitable for demolition or renovation. About 290 m² of the land is located in the green zone, while over 720 m² lies within the construction zone under urban regulation 2.2. A notable advantage is that the plot has access from two streets. The location is very good — nearby are two schools, two kindergartens, two medical centers, and public transportation. It's just a few minutes' drive to Ilica Street. For further inquiries, we remain at your disposal...
