Leírás:

Set in the leafy Monte Mario area, in northern Rome, this remarkable two-level penthouse apartment is in a contemporary villa of only three units, designed by a renowned architectural firm and featured in international design publications. The building is surrounded by a beautifully maintained 4,000 sqm communal park and offers luxury amenities including concierge service, advanced security, a gym, spa with sauna, covered parking and a private cellar. The main level of approximately 200 sqm opens into an elegant entrance hall leading to a spacious open-plan living and dining area with floor-to-ceiling glass doors and access to a deep panoramic terrace. The open kitchen with central island is conceived as a social focal point. This floor also hosts a master suite with a double walk-in wardrobe, an en-suite bathroom and a private terrace, plus two additional en-suite bedrooms, a utility room and a laundry. The upper level opens onto a spectacular roof garden with a heated swimming pool, hydromassage and counter-current swimming, surrounded by a solarium and lounge areas with sweeping green views. Energy class A4, home automation, photovoltaic system and refined finishes complete this exceptional estate.
