Feladta:	2026. 05. 07.

Leírás:

Shop with 556m2 and 2 parking spaces. Air conditioning system installed.

Lake Towers, located in Arca d'Água, in the former Campo do Salgueiros, emerges as a direct response to the housing shortage, adapted to the new dynamics of urban life.

The development offers a wide variety of apartment types, from smart one-bedroom apartments to two-bedroom and three-bedroom apartments, all fully equipped and designed to provide comfort, efficiency, and quality of life.

Distributed across four towers, three of which are residential with 361 units and one tower will be dedicated to student housing with 240 units.

Each building will have 12 to 14 floors, also integrating commercial and service spaces, such as a co-working area, promoting a complete and balanced urban experience.

Access to the site is via three types of routes - pedestrian, bicycle, and vehicular. The pedestrian paths offer various viewpoints over the proposed waterway and the existing lake.

With excellent access, ample green areas, and a harmonious relationship between city and nature, it is also well served by public transport.

This project promises to redefine the residential landscape of Porto.

The projected completion date for Lake Towers is the end of 2029..

Energy Rating: A
