This development-stage hospitality opportunity lets a buyer enter after major early work has been completed. The 2,124 sqm leasehold site is fully paid, the PBG is issued and held, the full architecture, structural, MEP and interior/exterior design package is available, the site is prepared, and the completed foundation has undergone laboratory testing. Approximately 24% of the original construction scope is reported complete.

- Café
- Tropical, rice-field and river surroundings

According to the developer, the land was leased and fully paid for 30 years, with approximately 28 years remaining and a stated route to a further 25-year extension. This is a leasehold project acquisition; no underlying freehold-title transfer is advertised.

Qualified buyers can review the land-title and ATR/BPN materials, cadastral information, issued PBG, project and foundation-test documents, current-site media, concept visualizations and financial model.

Layouts and selected infrastructure may still be adapted within the approved envelope, height and footprint. Concept images show the future design; current-site drone photos show the present stage.
