Located on the East Coast of Mauritius, within a preserved natural environment blending green spaces, landscaped gardens, and tree-lined avenues, this new residential neighborhood has been designed to offer a harmonious living environment where nature, well-being, and modernity meet. Its contemporary Mauritian-inspired architecture, perfectly integrated into its surroundings, favors open spaces, natural light, and cross-ventilation to ensure optimal living comfort throughout the year. The project consists of only 104 residential units, spread across 72 apartments, 26 townhouses, and 6 individual villas, creating a sought-after, intimate, and friendly atmosphere. The 72 apartments, available in 1, 2, or 3-bedroom configurations, offer areas ranging from 55 sqm to 108 sqm. Designed to meet the expectations of both residents and investors, they feature beautiful terraces opening onto the neighborhood's gardens and landscaped areas. The 26 three-bedroom townhouses, with an area of 176

sqm, provide a perfect compromise between an apartment and a villa. They impress with their generous volumes, private outdoor spaces, and a design that favors privacy while maintaining a true sense of community. The 6 individual three-bedroom villas, with an area of 173 sqm on lands of approximately 600 sqm, offer an exclusive living environment in the heart of lush green surroundings. Their elegant architecture, private gardens, and the option to add a swimming pool make them particularly attractive properties for families or buyers seeking a high-end tropical lifestyle. Residents also enjoy privileged access to numerous facilities and services: leisure areas, sports installations, shops, restaurants, private school, coworking spaces, beach & boat club, as well as a secure environment promoting an exceptional daily quality of life. This new address represents a rare opportunity to live in or invest in a modern and sustainable residential neighborhood, in the heart of one of the most sought-after regions of Mauritius, between lush nature, turquoise lagoons, and the gentle tropical way of life.
