VILLA CAVALIERE - €345,000

Property Overview & Location Large, independent 4-bedroom villa occupied year-round and facing South-East. Situated in a peaceful mountain setting in the village of Corio (Torino), within the hamlet (frazione) of San Bernardo at 996 meters elevation. San Bernardo is an exclusive hamlet of about 15 homes with a small church, positioned along a quiet dead-end road beneath a 2,000-meter National Park

rich with walking paths and local wildlife (deer, foxes, wild boar, and peregrine falcons).

The grounds encompass over 1,800 m² of hillside land, complemented by additional private woodland across the road. The property offers private, secure parking for 6+ vehicles. The local commune completed extensive road maintenance in 2025 (widening, resurfacing, and subsidence prevention) at no cost to residents. Due to a nearby telephone tower, the commune clears snow from the road twice daily in winter.

ABOUT THE AREA

Corio is a tranquil mountain municipality located in the Metropolitan City of Turin within the Piedmont region of northwestern Italy. Nestled roughly 30 kilometers northwest of the city of Turin, the town sits at an elevation of about 625 meters above sea level. It extends like a natural amphitheater along the valley of the Malone stream, offering scenic views where the foothills meet the Graian Alps.

The town features rich historical roots stretching back to ancient Celtic settlements before evolving through significant medieval developments. Visitors can explore a charming stone-paved historical center marked by traditional alpine architecture, narrow streets, and notable religious structures like the Church of Santa Croce. Surrounded by lush woodlands, streams, and pristine mountain trails, Corio is popular for outdoor activities such as hiking, mountain biking, and summer retreats away from the urban heat.

Economically and culturally, Corio remains deeply tied to Piedmontese traditions, boasting local craft traditions, agriculture, and regional cuisine. Its proximity to the nearby Lanzo Valleys and the Canavese area makes it a convenient gateway for exploring rural Northern Italy. Despite its peaceful rural character, it maintains easy access to the metropolitan amenities of Turin via local road networks.

The nearest major airport to Corio is Turin Airport (also known as Turin-Caselle Airport, IATA code: TRN), located approximately 15 to 20 kilometers south of the town. Because of this short distance, travelers can typically reach Corio in under 30 minutes by car or taxi from the terminal. For international travelers seeking broader long-haul flight options, Milan Malpensa Airport (MXP) is the next closest major hub, situated roughly 100 kilometers to the east.
