Investment Opportunity – Building Plot with Approval for a Multi-Family Residential Project We present a highly attractive location, ideal for investors and construction companies – a regulated urban construction plot with valid conceptual design approval for a multi-family residential building. Key Plot Features: • Location: Herceg Novi • Land area: 914 m² • Zoning: Multi-family residential construction • Approval: Conceptual design approved by the local urban planning authority • Building structure: Ground floor + 2 floors + attic (P+2+Pk) • Infrastructure: Complete utilities available (water, sewage, electricity, access road) Project Potential: According to the approved design, the project envisions the construction of a modern residential building suitable for apartment sales or long-term rental. Ideal for developing a peaceful family community or exclusive residential units aligned with urban standards. Advantages: • Urbanistically and legally regulated project • Existing approval significantly reduces preparation and construction start time • Attractive and well-connected location • Flexibility in interior layout and apartment structure
