Where Design Meets Comfort: A Jewel of Rare Beauty in the Heart of Monzambano

The Soul of the Project: A Dialogue between Ages.

There are residences that merely offer a space, and homes that can tell a story. This residence, located in the pulsating and historic heart of Monzambano, belongs to the second category. The property, a completely independent solution from heaven to earth, is the result of a bold architectural vision: merging the historic heritage of the village with a contemporary aesthetic language, at once raw and refined.

The Essence of Materials: A Sensory Experience.

Every detail has been attended to with almost maniacal precision, escaping standard solutions to embrace uniqueness.

The Textural Contrast: The skilful use of natural stone and exposed concrete gives the rooms a bold and "eccentric" character, mitigated by the timeless warmth of the original wooden beams, recovered through a conservative restoration of excellence.

Iron as a Graphic Sign: The window and door frames, custom-made in iron, are not simply fixtures but true industrial frames that capture light and define space.

The Interior Path: Light and Verticality.

Crossing the threshold, the home reveals itself on three levels, connected by an ultra-modern staircase design, a functional sculpture that dominates the interior perspective.

The Living Area (First Floor): A large open space where the living room and open kitchen coexist in perfect harmony. Large windows flood the space with light, enhancing the textures of the materials and refined finishes.

The Private Shelter (Second Floor): Ascending to the top level, we enter the sleeping area. Here, the master bedroom becomes a sanctuary of quiet. The window transforms into a living picture: a splendid view of the Mincio River that gives unparalleled sunsets and shades of green. The floor is served by a modern windowed bathroom, where functionality marries signature design.

Space and Service (Ground Floor): Practicality has not been sacrificed to aesthetics. The ground floor houses an organized laundry area and a spacious basement, ideal for those seeking impeccable housekeeping.

Invisible Technology and Evolved Comfort.

Beneath the refined aesthetics pulses a state-of-the-art technological heart. The home is equipped with:

State-of-the-art systems for maximum serenity and safety.

Underfloor heating, providing uniform thermal comfort and total freedom in furnishing.

Custom-made furniture integrated into the project, designed to maximize space without ever weighing down the design.

Living in Monzambano: Between Villages and Nature

Choosing this house means embracing a "slow" lifestyle but connected to the excellence of the area:
