Service fee: no
Construction Stage: Act 14

Payment options:

3000 euro deposit

Mortgages and installments are possible. Individual payment terms.

The Black Hill residential complex is a modern project of a new generation, combining architectural expressiveness, functionality and impeccable quality of execution. It is located in an actively developing area of Burgas, on Cooperator Street, a few steps from the JYSK store and next to residential block 91. The convenient location near the main road provides easy access to the city center and other parts of the city.

The building includes two entrances and covers more than 8,000 square meters of total built-up area, distributed between an underground parking lot, a ground floor and six residential floors. There are 77 apartments in total: 39 two-room, 34 three-room and 4 studio apartments.

For the convenience of residents, there are 29 underground parking spaces, 8 of them with charging

stations for electric vehicles, 29 garages and 17 surface parking lots.

The project features a minimal percentage of total space, energy-efficient materials, and a modern architectural style.

"Black Hill" is a harmony of design and comfort, created for living and investing.
