Prezzo:	USD 684,269.22

Posizione

Nazione:	United Arab Emirates
Stato / Regione / Provincia:	Ra's al Khaymah
Pubblicato:	14/01/2026

Descrizione:

Residential development of contemporary architecture, located in Ras Al Khaimah, United Arab Emirates, designed to provide a modern, sophisticated and functional lifestyle, in one of the most dynamic and sought-after cities in the world.

The project is distinguished by its elegant architectural composition, developed in two residential towers, connected by a raised structure that creates a striking visual identity and reinforces the fluidity between the buildings. The configuration includes more than 20 residential floors, with well-distributed common areas and architectural solutions designed to maximise views, natural light and comfort.

The housing offer is diversified, integrating studios and apartments with 1, 2, 3 and 4 bedrooms, with well-proportioned areas and efficient layouts, suitable for both own residence and investment. The larger typologies stand out for their large areas and adaptation to family contexts, while the more compact units have a strong potential for profitability.

Each fraction has private parking spaces, adjusted to the typology, and the building is equipped with passenger elevators and a service lift, ensuring convenience, accessibility and efficiency on a daily basis.

Inserted in a strategic area of Dubai, the development benefits from proximity to beaches, golf courses, marinas, shopping centres, leisure facilities and services, as well as excellent road access, allowing quick connections to the main points of the city.

With freehold ownership, this project represents a solid opportunity for international investors, offering a balance between construction quality, privileged location and high potential for appreciation in a constantly growing real estate market.

An ideal solution for those looking to invest or live in Ras Al Khaimah, combining contemporary design, comfort and a strategic location in the United Arab Emirates
