Descrizione:

Thonglor Tower is an 18-story condominium in Bangkok's vibrant Thonglor district, offering 700 units just 100 meters from Thonglor BTS Station for effortless citywide access. Developed by Ekming Machinery Co., Ltd and completed in January 1995, the tower features spacious 1- to 3-bedroom layouts (40 – 100 sqm) that remain popular with both locals and expatriates thanks to consistently well-maintained communal areas and contemporary finishes. Residents enjoy a full suite of on-site amenities, including an eighth-floor swimming pool and gym, lush garden spaces, passenger lifts, and 24-hour security with CCTV and key-card entry, all designed to foster a safe, comfortable lifestyle. Everyday conveniences abound, with Emquartier, Terminal 21 and Central Plaza Rama 9 shopping centers, Samitivej Hospital, and countless dining options within easy reach. Beyond its lifestyle appeal, Thonglor Tower presents a compelling investment opportunity: units are currently priced about 25 percent below estimated market value, and ongoing development in the surrounding neighborhood supports strong potential for capital appreciation. For buyers seeking a balanced urban home or a strategic asset in one of Bangkok's most fashionable locales, Thonglor Tower blends convenience, security, and community in equal measure.
