## About the Area

Nestled at the northern foot of the Serra da Arrábida, Cabanas is a charming village within the parish of Quinta do Anjo, Palmela. Known for its deep connection to Portuguese tradition, the area offers a serene rural atmosphere characterized by rolling hills, ancient vineyards, and a landscape dotted with historic windmills. It serves as a peaceful retreat for those who appreciate the 'Mediterranean lifestyle,' where the pace of life slows down and the natural beauty of the Arrábida Natural Park becomes your backyard.

The village is a gateway to some of the region's finest culinary and cultural experiences. Local heritage is celebrated through the famous Cheese, Bread, and Wine Fair, which showcases the artisanal Azeitão cheese and the prestigious Moscatel wines produced in nearby estates. History buffs can explore the 16th-century Chapel of São Gonçalo or take a short drive to the medieval Palmela Castle, which offers 360-degree views extending all the way to Lisbon and the Atlantic coastline.

For outdoor enthusiasts, Cabanas provides immediate access to the diverse ecosystems of the Arrábida range. You can spend your mornings hiking or mountain biking through limestone ridges and Mediterranean shrubland, then head to the coast in just 20 minutes to reach the crystal-clear waters of Portinho da Arrábida or Galapos Beach. Despite its tranquil setting, the village is surprisingly well-connected, with modern infrastructure and proximity to major industrial hubs like Autoeuropa, making it a viable location for both leisure and professional life.

Travel accessibility is a major highlight, with three key airports serving the region:

\* Humberto Delgado Airport (Lisbon): The primary international gateway, located approximately 40–45 km (about 35 minutes) away via the A2 or Vasco da Gama Bridge.

\* Faro Airport (Algarve): Ideal for those traveling from the south; it is roughly 240 km (about 2 hours and 20 minutes) away via the A2 motorway.

\* Beja Airport: A smaller regional option located roughly 130 km to the southeast, primarily used for seasonal or charter flights.

## Main Features

- \* 10880 m<sup>2</sup> of land for development
