Descrizione:

We are selling a stone house situated in Kastela, in a great location, just 50m from the sea and a pebble beach, near a marina, and in the historic town centre. This house is exceptional in that it is about 300 years old, has retained its traditional style both in the interior and in the exterior, but was also renovated in 2023. As part of the renovation, modern and luxurious furniture and appliances, as well as exotic details, were added. These contemporary additions fit in perfectly with the stone walls, wooden ceiling and other autochthonous parts of this house. This eye-catching and original Dalmatian house is suitable for a year-round living and is an ideal opportunity for those who love Dalmatian cultural heritage and are looking for a truly special home for an extraordinary lifestyle. It is currently being used for tourism purposes, making it ideal for those who wish to continue operating such a business as well.

The house has 90m² of living space and is divided into two floors, which are connected by a handmade wrought iron staircase.

On the ground floor, there is:

- An open-concept room that includes a living room, a dining room and a kitchen

- An open-concept room that includes a bedroom and a bathroom

The house is fully open-concept, that is, there are no walls between the floors or the rooms, including the bathroom, while the toilet area is separated by a privacy screen. The house is being sold fully furnished.

The already-mentioned renovation also included adding a new roof and completely new installations. Also, it was carried out in accordance with conservatory regulations, as the house is a protected cultural good.
