Descrizione:

Apartment for Sale in Kaminia.

Set on the 3rd floor of a modern residential building, this under-construction apartment is designed with clarity and balance, focusing on functionality, natural light, and everyday comfort.

The interior is thoughtfully arranged, offering two well-sized bedrooms, a bright living area, a fully organized kitchen, one main bathroom, and an additional guest WC. It's a home that works naturally, whether for personal use or as a long-term investment.

Large openings allow natural light to flow through the spaces and extend seamlessly the private veranda, creating a smooth connection between indoor and outdoor living.

With an A+ energy rating and an autonomous fan coil system for both heating and cooling, the apartment ensures year-round comfort with low operating costs and a modern approach to energy efficiency.

The property includes all the essential elements of a complete residence, such as elevator access, solar water heater, storage space, security door, and alarm system, along with pilotis parking.

Located in a quiet residential zone with easy access to daily amenities, it offers the right balance between calm living and practicality.

With delivery expected in September 2026, this is a well-structured opportunity to secure a newly built apartment that combines modern standards with long-term value.
