Renovated Multifamily Villa with Pool and Panoramic Views near Vale Judeu, Loulé

With a particularly versatile configuration and three homes with independent entrances, this fully renovated multi-family villa benefits from a quiet location on the outskirts of Vale Judeu, between Loulé, Quarteira and Vilamoura. Implanted in a property with a total area of 1,881 m², it combines privacy, large outdoor spaces and a pleasant panoramic view over the countryside.

Facing south, the property was designed to privilege natural light and connection to the outside. The three dwellings have an open space living room and kitchen, with access to the large common balcony on the ground floor, which establishes a direct connection to the pool and the garden.

The independent configuration of the three houses offers different possibilities of use, whether for a large or multigenerational family, to receive family members and guests in total privacy or as a property with high potential for profitability.
