Descrizione:

Large penthouse for sale in Ramat Aviv G., the area of the apartment inside is about 250 square meters at a shell finish level!! This means that all construction inside the apartment, including division into rooms, kitchen, service areas, will be done by the buyer according to his personal taste and with his own financing. The apartment also has 3 balconies, one to the west, the second to the east, each with an area of about 50 square meters and the third to the south with a size of about 10 square meters.

The area of the entire apartment can be doubled by also buying the adjacent penthouse, built with a full and invested finish level, with an additional price of about 17.5 million NIS and knowing that there is a tenant in the apartment for another 21 months or so.

For serious customers, I will make every effort to obtain a price reduction.

The apartment has 2 regular parking spaces and a storage room.
