Descrizione:

A plot of approximately 493.5 sqm located on Keren Kayemet LeIsrael Boulevard in Tel Aviv's sought-after Tel Baruch neighborhood. The plot currently features an older house—part of a semi-detached structure sharing a wall with the adjacent unit (approx. 148 sqm, two stories; access to the upper floor is via external stairs rather than an internal staircase)—which requires comprehensive renovation. From an economic perspective, the transaction is primarily a purchase of land and building rights, offering the option to demolish the existing structure and build a new home of up to three stories (including a private pool). Alternatively, the existing house can be renovated. Situated near schools and a major transportation artery, the property presents an excellent opportunity for families, renovators, or developers. Some price flexibility is possible for serious buyers. A brokerage fee of 2% plus VAT applies to the sale price.
