We present you a well-located plot of land in the village of Barão de São Miguel, where you can build the house you have always wanted. Of the 168 m2 of total area, you can build a house on the entire land, as specified in the PDM. Bring your dream to life.

Barão de São Miguel is located a few minutes from Budens where you can find the Intermarché hypermarket, with bakery, stationery, butcher, fishmonger and basic necessities, yet it is within walking distance of the beaches of the Costa Vicentina.

Barão de São Miguel is a quiet parish belonging to the municipality of Vila do Bispo. This is a rural locality, of great peace of mind that has quietly survived the urban and tourist development of the Algarve region in recent decades.

The village is characterized by its white houses with colorful stripes around windows and doors, topped by the typical Algarvian lacy chimneys, in a frank Moorish influence, given the proximity to North Africa and the many years of Moorish occupation of the territory.

This typical village surrounded by rounded hills covered with cistus is proud of its Mother Church with origins in the sixteenth century, which maintains the typical design of the architecture of the place,

consecrated to Saint Michael, Archangel, who imposes himself in the center of the town, for its location, for the whiteness and simplicity of its façade, surrounded by a small churchyard and finished, to the south, by a bell tower, which can be climbed from the outside.

Thus, the beautiful eighteenth-century carved altarpiece stands out, where flowers, vine leaves and twisted columns coexist with two small angels, framing the central element of the High Altar: the image of the patron saint, Saint Michael, with his martial robes and his typical Scale an instrument for the behavioral assessment of souls, in Christian Catholic doctrine. - REF: CP-T2416
