Omschrijving:

In Algarrobo you can easily reflect its customs and traditions. This embellishes the landscape in the same way as the sets of whitewashed facades, the reddish roofs of its houses, the narrow and steep layout of its streets. Some of its corners are another of the treasures of the White Villages of Malaga.

Just 3 km from the coast and the sunny beaches of the Axarquía (Eastern Costa del Sol), the town of Algarrobo (Málaga) enjoys a growing interest from international buyers.

We present a large estate in Pago del Consejo in Algarrobo village, with an area of four hectares, made up of three plots. Its location in the centre of the village makes it unique as it is sheltered from strong winds coming from the north, east or west.

The trees found on the farm are as follows: 1300 Hass Duke 7 and Zutano avocados, planted in April 2019, 500 Hass avocados from 2003, and 740 Osteen mangoes planted in 2010.

To maintain the plantation described, the property has its own water tank of 500,000 liters, 3 hours of water daily from the Algarrobo Irrigation Community and a well on its own. In addition, it has access to the water rights of 2 wells and a spring shared with the adjoining farms.

The irrigation system is fully automatic thanks to the installation of several Wi-Fi points, and automatic

key systems.

In addition, the property consists of an implement house where all the materials for the operation of the farm are located.

Finally, we also have to highlight the opportunity to build a house since you have a dilapidated house that needs renovation.
