Omschrijving:	

Building for sale in Évora, fully restored and refurbished, located in the historic center of the city next to the Church of São Vicente and a few meters from the Giraldo Square.

Classified as a building of public interest, the property was fully restored and remodeled, with scrupulous respect for historical architectural details, with particular emphasis on Manueline windows, interior and exterior stones and stonework, vaulted ceilings, windows and wooden doors recovered. Additionally, some comfort elements were included, such as the installation of air conditioning, wooden floors, hydraulic flooring outside and common circulation areas and false ceilings with recessed lighting.

Consisting of three divisions of independent use, one per floor, the building has a commercial space and two 2-bedroom apartments. On the first floor you can find a commercial space with 87m², a pantry and storage area. The first and second floors have one apartment each, consisting respectively of two bedrooms, one of them en-suite, a fully equipped kitchen, a living room and another bathroom. Besides having an independent storage room each, the second floor apartment has a pleasant outdoor patio and the second floor apartment has a terrace with two levels and a magnificent panoramic view over the historical area of the city and the Alentejo plain.

Located in the historic center of Évora, the building is next to the Church of São Vicente and the Church of the Martyrs, and near the emblematic Giraldo Square, the heart of the city and a meeting point par excellence, with cafes, terraces and stores. At one end is the Santo Antão Church and the marble fountain with 8 spouts, representing the 8 streets that lead there.

Considered one of the jewels of Alentejo and Portugal, the city of Évora dates back to Roman times. Its long history, monuments and the fact that it has preserved an urban ensemble representative of the XVI to XVIII centuries, led UNESCO to classify Évora as World Heritage. Recently it was nominated as European Capital of Culture in 2027.

As it is a property classified as of public interest, which grants it the exemption of Municipal Tax on Real Estate transactions and Municipal Property Tax (IMI), this building is an excellent investment opportunity in a city that has an important student community due to the University, with more than eight thousand students, of which 1520 are foreigners from 68 countries.
