The site is regulated and is intended for the construction of a resort and recreational facility: a hotel, a holiday home or another tourist complex.

The package of documents is fully ready:

- an indefinite detailed organizational plan (PUP) has been approved
- the project for the implementation of the energy scheme has been approved
- permission has been obtained to drill an artesian well

The site has undeniable advantages:

- smooth terrain and correct shape
- panoramic mountain view
- clean nature, quiet and proximity to tourist areas

This is a great opportunity to implement a project in an environmentally friendly area, close to resorts, with high potential for recreation and investment.
