SAN MIGUEL DE SALINAS

Despite being located in the interior of the province of Alicante, San Miguel de Salinas is located just four kilometres from the Mediterranean Sea, between the tourist areas of Torrevieja and Pilar de la Horadada.

This sunny town in the Valencian Community is an authentic viewpoint of the Mediterranean, being commonly known as "The Balcony of the Costa Blanca". This municipality in the region of Vega Baja del Segura is located on a hill 100 meters above sea level, on the slopes of the Sierra de "Los Alcores".

From its privileged location, you can see the entire Alicante coast, in addition to the fact that the Mediterranean is only ten minutes away by car, as are several renowned golf courses in the south of the Costa Blanca.

Its pleasant Mediterranean climate is another attractive point for tourists, characterized by little rainfall and mild temperatures. The average annual temperature is 23 degrees Celsius, and you can enjoy abundant sunny days practically during all seasons of the year. - REF: San Miguel de Salinas GC 507041
