Omschrijving:	

In the heart of the peaceful heights of Santa Bárbara de Nexe, this property with sea views offers a way of life in harmony with nature. Turned outwards, it seduces with its remarkable garden, designed as a real life project by an enthusiast. A story in three chapters: a structured landscaped garden with several atmospheres, an orchard in the making and an independent agricultural area with separate entrance (horses, crops, fitness trails...).

The villa offers flexible living spaces, suitable for both a family and a rental project, allowing each floor to be varied as per your needs. The spacious and equipped kitchen, extended by a scullery and a traditional wine cellar, is a convivial heart for the house.

It is important to note that the living-dining room as well as the bedrooms on the ground floor all open onto terraces. Regarding the first floor, you will find a magnificent and spacious terrace with sea views.

Outside, the open views of the ocean and nature, an additional covered reception room, a sauna area and the swimming pool complete this property. Finally, discreetly placed and accessible via a second entrance, the covered and uncovered parking spaces are out of sight of the house.
