### Omschrijving:

This former flour mill has been completely renovated by skilled local artisans, including the roof, drainage system, electrical wiring, windows and doors, fully fitted kitchen, plumbing, and more. The property offers three bedrooms, including one on the ground floor with its own private en-suite bathroom. Set on its own island, in a haven of peace and nature, the Charente River flows alongside, providing registered water rights and historic recognition on the Cassini map. The millrace still exists, though the original wheel is no longer present. The setting is tranquil and picturesque, with a total land area of 4,751 m<sup>2</sup> (just over an acre). This is a high-quality renovation in a truly beautiful and rare location. The house is heated by two efficient wood-burning stoves, but an electric heating circuit (including points) is already installed ☑ you only need to add radiators if desired. And the "Icing On The Cake": the mill can be sold fully furnished!
