Omschrijving:	

Over the last six months or so, our clients have been requesting a UK based property related investment and whilst always keen to bring these opportunities to market, we are also aware of the pitfalls of such past investments like student housing etc, so we have taken a huge amount of time researching and carrying out due diligence on our latest Park Homes project.

This is your chance to get a government backed, socially and ethically investment into the UK Park Homes scheme. For just £43,000 you can own your own 2/3 bedroom property which comes with a guaranteed tenant whos rent is paid via the UK government, fully insured and they even offer a guaranteed buyback every two years. This project has been running successfully for over five years, with many client testimonials in place to give you peace of mind.

This gives you a fixed return of 10% ROI per annum!!!

We have teamed up with one of the UKs leading Park Homes developers, who identify and structure high-yield investment opportunities in social housing. Their latest project offers a fixed income return, beating inflation and interest rates, while also making significant social impact.

Our partners are experts in real asset investments that give direct ownership to clients. We offer a Real Asset with direct ownership to investors, which in this case is a purpose-built single storey home, manufactured using modern methods of construction.

Their Asset Management infrastructure delivers key services for landlords, local authorities and low income and government assisted tenants. They partner with investors, social housing providers and local authority commissioners, allocating single storey homes to low-income and government assisted tenants.

So far

They have housed 1500+ individuals since inception

They work with over 250 investors

They have homes placed in 136 communities nationwide

They work with 127 of the 317 local authorities in the U.K.

They have an occupancy rate of 96% at any given time, 4% accounts for homes being transported or refurbished
