Omschrijving:	

Get a rare opportunity in the heart of Lefkada with this newly built maisonette constructed in 2025, which combines modern architectural design with panoramic views of the Ionian Sea. This is a two-level penthouse (1st and 2nd floor) that offers complete autonomy and privacy, ideal for both permanent residence and high-yield tourist investment (airbnb) in one of the most popular Ionian destinations.

The maisonette spans 55 sq.m. with a modern layout that includes a comfortable bedroom on the upper floor with an internal staircase and loft, two full bathrooms (one on each level for convenience), an open-plan living room-kitchen with functional design, and three balconies offering unobstructed panoramic views of the sea and the urban landscape of Lefkada. The northeast orientation ensures ample natural light in the morning, while the residence is extremely bright, airy, and sunny, featuring double energy-efficient windows and thermal insulation that guarantees low energy costs and high efficiency. The property is fully furnished and equipped with appliances, ready for immediate installation or exploitation, while it has three parking spaces in an open area – a rare advantage for island property.

Situated in a quiet neighborhood of Lefkada town (Chora), the maisonette is just 2 kilometers from Lefkada Marina, one of the largest and most modern marinas in the Mediterranean with 620 vessels capacity, and less than 500 meters from the historic center with its picturesque alleys, shops, and restaurants. The famous Saint John beach with its 6-kilometer sandy coastline and kite surfers is just a stone's throw away, while access to the island's iconic beaches (Porto Katsiki, Kathisma, Egremni) is immediate. Lefkada General Hospital is 2.3 kilometers away, Aktio International Airport is 24.5 kilometers away, and supermarkets and service shops are within walking distance.
