MAIN FEATURES:

Structure articulated on four floors above ground

Each level arranged to accommodate a three-room apartment

GROUND FLOOR and EQUIPMENT:

The property has three independent entrances: one intended as the main door for access to the apartments and two others that allow the creation of storage rooms, warehouses or cellars for personal use or rent to third parties, a rare added value in the historic center

The property can be purchased in its current state or completed and finished to perfection according to the buyer's specific requirements, thus ensuring maximum customization and quality of execution.

Detailed estimates for the cost of completing the work are already available for a clear and transparent evaluation of the overall investment.

The property offers extraordinary configuration opportunities due to its structure on four independent levels:
