Living in Matosinhos History, Sea and Future

The city of Matosinhos is today one of the most sought after areas of the Porto Metropolitan Area. Historically linked to the sea and fishing, Matosinhos has been able to reinvent itself over the last decades, becoming a modern, dynamic and constantly growing urban hub.

With a strong focus on tourism, reference gastronomy (especially fish and seafood), urban requalification and the attraction of companies and services, the city today offers a unique quality of life combining beach, nature and urban centrality. The proximity to Porto further reinforces its strategic and real estate value.

Whether for own housing, benefiting from the convenience of living in the center of a vibrant city and by the sea, or for investment, in an area in constant appreciation and development, this property brings together location, exclusivity and growth potential.

Top floor, unalterable sea views and the possibility of expansion characteristics that make this apartment a differentiated opportunity in today's market. - REF: A01615-EC
