Omschrijving:

This 5 bed 3 bath house was designed by the well-known architect Manuel Jorge and displays his usual features. Set in an elevated position and between two roads, this property offers sea views from nearly every room and every terrace of which there are several. Set over 3 floors the top and lower floors are dedicated to sleeping areas, with two bedrooms and a bathroom on each level, while the central floor is dedicated to the living area with a living dining room, kitchen, utility room, a shower room and an office or bedroom. Off the top road, there is parking for one car and a large terrace to one side of the property, while a Mediterranean garden spills down over all three levels to the other side of the house and has an irrigation system. Off the master bedroom on the top level there is a large terrace with views across Javea to the sea and this terrace gives access up to a private roof terrace. Off the living room there is a dining terrace with a built in BBQ and the same amazing views. There are also stairs up to a mid-terrace and down to the pool terrace which can also be accessed from the bedrooms of the middle level. The lower road gives access to what is now used as storage but could be returned to a large garage. There is gated access up to a terrace and further stairs take you to the pool terrace. The 12x6 pool has been recently renovated and the terrace gives plenty of space for sunbeds or seating.
