Omschrijving:

In the heart of the historic center of Montepulciano, just a few steps from Piazza Grande, we offer for sale a charming townhouse of approximately 200 sqm, rich in potential and character. The property is arranged over three levels. On the ground floor there is a spacious storage room featuring a large glass door. The first floor hosts the main living area, composed of two bedrooms, a walk-in wardrobe, kitchen, dining room, bright and generous living room, and three bathrooms. With a different internal layout, it would also be possible to create up to four bedrooms. On the second floor there is a large attic in its unfinished state, offering the opportunity to be customized and transformed into an additional bedroom, a study, or an evocative living area with bathroom.

The roof was completely rebuilt in 2020, and the floors are in terracotta.

All utilities are available. The water supply is provided by the public aqueduct. The heating system is powered by natural gas.

An ideal solution for those wishing to live in the historic center of Montepulciano or for anyone seeking a property with great potential, perfect both as a private residence and as an investment opportunity.
