Omschrijving:

Situated on an elevated plot of over 13,000 m², this house presents an excellent opportunity for a renovation project. Accessible via a steep path, it offers a peaceful environment, beautiful views, and a natural spring on the property.

The house has 93 m² of living space and offers the possibility to create three bedrooms, including two on the upper floor with a terrace. Significant renovation work is required, but the roof and windows are new, providing a major advantage for the project. There is currently no heating system installed, and the house is not connected to the sewage system, allowing you to design the installation according to your needs.
