### Omschrijving:

Ancienting views, on the top floors of a elegant Palazzo serviced with elevator, for sale in Siena city centre. Perched atop a storied 15th-century palazzo, this exquisite penthouse offers a marvellous vantage point over the medieval tapestry of Siena, located just on the back of the iconic Piazza del Campo, this house serves as a private sanctuary above the vibrant, stone-paved streets of the gothic city center. Every window frames a living masterpiece, but none so arresting as the panoramic view from the upper-level salon, where the majestic Tower of Mangia rises against the Tuscan sky, seemingly within reach. The interior narrative spans 158 square meters (1700 sq ft) over the 4th and 5th floor, parquet flooring stretches across both levels, and full air conditioning in all rooms. On the fourth floor, the layout presents a spacious entrance hall that leads to a bespoke kitchen and dining, alongside two double bedrooms, two bathrooms, a closet and a laundry. From both bedrooms, a traditional balcony offers a secluded perch to observe the rhythmic pulse of Sienese life. Ascending to the fifth floor, the atmosphere shifts to one of ethereal light and grandeur. The primary living room, a sun-drenched atelier of glass and sky, offers an immersive experience of the city's terracotta rooftops and ancient spires. With independent entrances on both levels, and serviced by a internal elevator/lift, this penthouse is not merely a home, but a definitive statement on the Sienese lifestyle, a harmonious marriage of Renaissance heritage and an uncompromisingly elevated standard of living.
